Top 3 Themes (of 5):

- 1. **Payments & Transfers** — 13 reviews (46% ≤2, 3.0 avg) • UPI failures & double-debits still top pain; successes up
- 2. **KYC / Verification** — 10 reviews (60% ≤2, 2.5 avg) • Verification stuck/rejected loops; selfie + PAN upload are
- 3. **Withdrawals & Support** — 9 reviews (44% ≤2, 2.89 avg) • 48h+ pending + hidden fees erode trust; fast weekday cas

What Users Said:

> “App crashes every time I try to pay rent via UPI. Can’t complete payment.” — Payments & Transfers, 1

> “KYC verification stuck at PAN check for 3 days. Tried reinstalling.” — KYC / Verification, 2

> “Withdrawal requested 48 hours ago still not credited. Support not replying.” — Withdrawals & Support, 1

3 Action Ideas — Next 7 Days:

- 1. Fix UPI pending/double-debit: add idempotency + live status — Eng — Track refund SLA (target <24h)
- 2. Cut KYC drop-off: autofetch PAN/Aadhaar via registered phone number + inline validation + selfie light guide — Produc
- 3. Make withdrawals transparent: show fee + ETA + confirm account before debit — Ops — Track pending tickets
